“The Flow!”
(John 15:1-8)

Dr. “C” coined the state of people totally immersed, or engaged in something, as “the _____.”

We might call it, being “in the _____.”

I like to think that “deeper _____” engages our minds in a similar state of “flow!”

When you are truly immersed in _____, you are in the “_____” with Jesus!

The scriptures call this “_____!”

The more you “_____,” the stronger and _____ you will grow and flourish!

Jesus describes our state of “abiding” as a _____ attached to a primary _____, planted by the vine grower!

In order for the branch to grow and bear fruit, it must be always _____ to the “_____ vine!”

We have _____ only in connection to Jesus!

How can we possibly think we can follow the Spirit’s _____, if we do not take the time to “_____” the flow of the Spirit’s breath?

Abiding is not just a cognitive occupation, not just a _____ exercise. It must be entered into with _____!

You feel yourself fully engaging, not because you “_____” but because you’re fully engaged with the _____ of your focus!

I think Pentecost is an example of a full “_____” experience.

Immersive experiences invite you to become “_____” within the experience itself, to fully experience the Holy Spirit’s _____ in your being and life!

The more you encourage your experiences of “_____,” the more you will feel the close _____ of God in your life!

Not just personally, but _____ can grow closer and more _____-driven when they _____ together!

Communities can _____! – People can become powerful _____ to the health and wellness of discipleship!

Churches can become social centers for _____ and inclusiveness for _____ people!

Jesus is not just a figure to be studied. He’s a _____ agent and a source of nourishment and _____!

**May we dare to immerse ourselves in the all-powerful
Vine of Christ!**
