“We Would Like To See Jesus!”
(John 12:20-33)

If you could spend an evening hanging out with a celebrity, who would you choose? _____

In today’s passage, some men from _____ were seeking to meet Jesus.

Jesus was not a _____.

Jesus spoke mostly in _____ and used the language and the symbols of the common _____.

Why do we still hang onto every word he said? It was not what he said. It was _____ he was!

This is the most sincere _____ of our hearts. We want to see Jesus. We want to _____ him for ourselves.

We long to be in his _____.

#1 – We would like to see him because something is _____ in our lives.

Many people suffer from a deep sense of meaninglessness that their life feels like a _____.

Some of us are “_____ - _____.” A new word that the Germans have coined.

We can certainly relate to this meaning. Something is missing, and there is no earthly substitute that can fill that sense of _____.

#2 – We would like to see him because some of us have never experienced the _____ that Christ brings.

(over)

We need something to give our lives not only meaning, but also new _____!

We are empty and we are _____.

There’s an _____ crisis in our lives.

We need a new _____, like Jeremiah spoke of!

We all need to see Jesus, and to know that he is _____ and that he is with us in life’s _____ and turmoil!

#3 – Jesus came to show us that one day we can _____ with God!

We don’t have to _____ it! Because we don’t!

Before the creation of the world, God planned to give His life on the cross to _____ it!

There is One who offers us more _____, more _____, more _____ than we could ever exhaust in a million lifetimes!

Through the eyes of _____, we can perceive him in our midst.

Let us take new _____, new _____, let us _____ ourselves anew to his work.

“Christianity is not a philosophy Jesus came to teach. It is a _____ Jesus came to impart.”

Won’t you receive the life He has to give?

Wouldn’t you like to see Jesus?
