

MISSIONS:

Kids Around The World

OBJECT LESSON OR KIDS SERMON

ITEMS NEEDED:

Roll of quarters
Loose quarter

Show the kids the quarter.

I've got a quarter here. Can anyone tell me something that you can buy for just a quarter?

Give the kids the chance to answer.

You can't buy much with just a quarter these days. So, should I just get rid of the quarter? Why not? Because if we take this quarter and add others to it, then this little quarter can do more.

Show the roll of quarters.

This is a roll of quarters. The quarters here are worth \$10. There are a lot more things that you can buy with this. For the next couple of months, we are going to be collecting an offering that we are going to give to missionaries***. Even if we don't have much to spare, when we combine our little bit with everyone else's bit, it can become a great big bit.

God uses missionaries to change the lives of people around the world. And God can use us to help those missionaries do their work. With God all things are possible.

***The offering collected throughout the Missions series can be used to help out missionaries that your congregation already supports or could be a one-time gift to new mission projects. For those looking for missionaries to support, we encourage you to consider the work that Brad and Susan Hammond are doing in Haiti.
